Security	Oauth 2.0 authentication
Analytics	Dynamic report builder API and Dashboard view
Alerts notification	Email notification on device errors and offline incidents
Reports	Real time sales and temperature reports via API and Web User interface

The screenshot displays the Selfly Cloud dashboard with several key sections:

- Analytics:** Features a 'Sales' bar chart showing data from 03 to 30, a 'Transactions' bar chart, and a 'Top products' horizontal bar chart. A summary card shows 'Sales 1178.60 €'.
- Advertisements:** A central panel for managing ads, including an 'Add new advertisement' button, an ad image, and details like 'Ad Title: Active', 'Ad description', 'Regions: All', and 'Individual Cabinets: Airport'. It also includes 'Reports' and 'Refill Report' options.
- Product Catalog:** A table listing items such as Chips, Protein bar, Nut mix, Yogurt, and Pastille with their respective quantities and prices.
- Control Panel:** A 'Cabinet Inventory' table showing 'Inventory length: 69' and a list of items with their expiration dates.
- Dynamic Ads:** A 'Fresh food' section with a 'Lifetime' toggle set to '(3 Days)' and a 'Fresh food' status indicator.

Selfly Cloud includes many advanced features such as real-time inventory management and sales reporting, dynamic ads and expiry date management for fresh food.

The performance of the product should always be tested in the actual application conditions. Our recommendations are based on our most current knowledge and experience and the pictures and illustrations presented in this document are for illustration purposes only. As our products are used in conditions beyond our control, we cannot assume any liability for damage caused through their use.
